
Climate and Ocean Modelling Workshop Agenda

Day 1 – 9 May 2022 4pm to 7pm Pacific Time and 10 May 2022 8am to 11am Japan Time

Speakers

Mercedes Pozo Buil: *“Regional Climate Projections for the California Current Ecosystem”*

Darren Pilcher: *“Modeling Ocean Acidification in the Bering Sea to Support Long-Term Planning and Management of the Largest U.S. Fishery”*

Anne Hollowed: *“Modeling the Impacts of Climate Change on Fish and Fisheries to Inform Long-Term, Medium-Term, and Near-Term Decision Making”*

Shoshiro Minobe: *“Variations and Perspectives for Forecast of North Pacific Marine Ecosystem”*

Followed by a Round Table and a discussion, *Bringing it Together*

Day 2 – 10 May 2022 4pm to 7pm Pacific Time and 11 May 2022 8am to 11am Japan Time

Speakers

Amber Holdsworth: *“Projecting the Impacts of Climate Change for the Canadian Pacific Coastal Ocean”*

Michael Jacox: *“Seasonal-to-Interannual Prediction of Coastal Marine Ecosystems”*

Neil Swart: *“Ocean Climate Modeling at CCCma/ECCC”*

Haruka Nishikawa: *“Climate Change Impacts on the Japanese Sardine in the Kuroshio Regoin”*

Followed by a Round Table and a discussion, *Bringing it Together*

For further information on workshop details, please contact Lara Erikson (lara.erikson@beci.info). For information on the science and BECI project, contact Robin Brown (Robin.Brown.PICES@outlook.com) or Brian Riddell (briddell@psf.ca).
